

HOME ECONOMICS

THESE 99 FRANCHISES BRING BUSINESS OWNERSHIP TO YOUR FRONT DOOR.

In an era when time is invaluable, balance is key and flexibility is the killer perk, owning a homebased business appeals to almost anyone who still dreams of trying to have it all. Yet a lot of would-be entrepreneurs face one major mental obstacle on their way to homebased success: Without the outside accountability, they're afraid they might not have the self-motivation to get past the startup stage.

Fortunately, many franchises have stepped up to provide an irresistible combo: the convenience of a homebased business with the support of a corporation. Suddenly, it seems easier than ever to run a successful enterprise—even an empire—from the comfort of your home.

To get you started on your search, we've compiled the following ranking of the top 99 homebased franchises, listed in order of their rankings in *Entrepreneur's Franchise 500*®, the world's most comprehensive listing of franchise companies.

This ranking is not intended to endorse, promote or recommend any particular franchise company. Rather, it's a tool for your franchise research, which should include interviews of existing franchisees, counsel from your attorney and accountant, and reviews of a franchise company's literature, including the Franchise Disclosure Document.

Listing compiled by Tracy Stapp

1. JANI-KING
