Search Engine Focuses on Healthy Recipe Listings

foodieview FoodieView is a unique recipe search engine providing one-click access to the internet's largest collection of vegetarian and vegan recipes. Since 2005 FoodieView has made it easy to find good food fast online. Instead of visiting individual Web sites to search for recipes one by one, through FoodieView's unique and convenient recipe search engine anyone can quickly search all of the Internet's best recipe sites simultaneously from one single search tool. Search by ingredient, keyword, dish name, cuisine, chef, dietary restrictions and more. The recipe search results are sorted by relevance and user rating, making it effortless to find the most popular, promising recipes. Viewers can also keep track of favorite recipe links using FoodieView's free recipe box tool.

For those hungering for more, FoodieView also offers a comprehensive restaurant guide covering nine major markets (Boston, Chicago, Las Vegas, Los Angeles, New York, Orange County, San Diego, San Francisco, and Seattle), cookbook reviews, "Recipe Roundup" newsletters and other food-related information resources.
