

Seeing Only One Aspect of Vision

Blind artist Ketra Oberlander founded Art of Possibility® Studios to enable artists with physical disabilities to participate as earners in society, rather than charity dependants. Along with fellow blind artist George Mendoza, their original works can be found on Phenominoes® pendants, which feature both painters' extraordinary work artfully reproduced on the backs of real dominoes. Available also are stationery, bookmarks and home décor. Shown is the Heart pendant. \$26.95
