

## Grab bag

By **Sabine Morrow** smorrow@ajc.com

All prices are manufacturers' suggested retail prices.

### **Bentley's Premier Popcorn, \$1.49 to \$99.95**

**What happens:** Bentley's, named after a pet wire-haired fox terrier, is a family-owned business in Peachtree City, and after one taste of the family recipe for butter pecan or toffee caramel popcorn, you'll be an instant fan.

**What works:** This caramel popcorn comes in portion controlled, 1.5-ounce bags, which keeps it fresh and makes it a little more difficult to over-indulge. Bentley's boasts an incredible butter and caramel flavor without any of the mess and stickiness of most caramel popcorn.

**What doesn't:** All of this goodness comes at a high price, nutrition-wise. One bag of butter pecan popcorn contains 200 calories and 13 fat grams.

**What you get:** Flavors include toffee caramel, butter pecan and cinnamon almond. The bags are sold separately or in decorative tins that hold 20 to 60 bags.

**Where you get it:** Currently, it's only available online at [bentleyspopcorn.com](http://bentleyspopcorn.com) and at a couple of terminal shops at Hartsfield-Jackson International Airport.

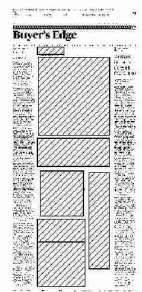

### **Power Sentry PowerSquid, \$16.65**

**What happens:** When you need to get some of those loose and tangled cords under control, the Squid keeps them in line by converting one grounded outlet into five.

**What works:** It takes up less room than some traditional, boxy power strips. Works well on computer equipment from printers to laptops. The PowerSquid also works to keep the area organized when you're powering up several power packs for cordless tools. It's a tough Squid that can take a bit of a beating.

**What doesn't:** The Squid comes with a 3-foot power cord. At times it would be handy to have a longer cord.

**What you get:** PowerSquid features five flexible outlets of different lengths that work with standard or transformer plugs. It comes with built-in keyhole slots for optional flush mounting, and the lighted switch has a 15-amp circuit breaker.

**Where you get it:** Available through [cableorganizer.com](http://cableorganizer.com).

### **X-Rated Fusion Liqueur, \$25 for 750 ml**

**What happens:** Say good-bye to winter and bid spring a warm welcome with this pretty in vivid pink liqueur that provides a hint of the tropics in each sip.

**What works:** The slender frosted glass bottle filled with beautiful rose liqueur makes a terrific hostess gift or a welcome addition to a ladies-only gathering – there aren't many guys who are going to chug this lipstick-pink drink. X-Rated Fusion offers a delicious and vibrant addition to a variety of cocktails, including martinis.  
**What doesn't:** For some, this might be too sweet.

**What you get:** The liqueur blends premium French vodka with juices from blood oranges, mango and passion fruit.

**Where you get it:** Available at several liquor stores, including Green's, 737 Ponce de Leon Ave., Atlanta, 404-872-1109.
