

## TRAVEL GEAR

### Keep three devices charged at once with PowerStation

Keeping all of your devices such as cell phones, game systems and iPods charged can be a real challenge when you are on the road.

The PowerStation Traveler, a \$32.99 device available at [www.cableOrganizer.com](http://www.cableOrganizer.com), solves this dilemma by charging three devices at the same time from a car charger or from a home charger with an optional \$15.99 AC/DC adapter.

It comes with a carry case to tote the devices and accessories, including a back pocket for the DC power cord for cars, which is included in the kit.
