

## Untangling the Web

An entire army couldn't keep your toddler from trying to stick his or her fingers inside electrical outlets. In other words, you need help.

CableOrganizer.com's Child Safety Kit includes more than 100 items intended to prevent common household hazards

involving children ages 5 and younger.

The kit includes swiveling outlet covers, cabinet and drawer locks, table-corner cushions, clear outlet covers, an extension cord with self-blocking outlets, cord winders for containing trailing wires and releasable cable ties for wrapping cables or tying cabinet doors.

You can order the kit at [CableOrganizer.com/child-safety-kit](http://CableOrganizer.com/child-safety-kit) or by calling 866-222-0030.

Cost is \$57.84.
