

**Lawn Care Goes Green**

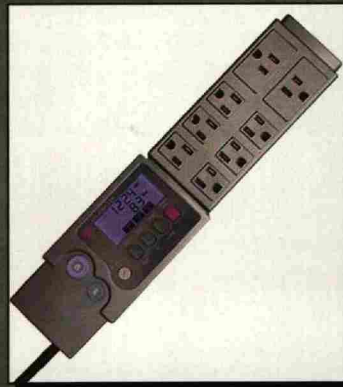

If you're looking for environmentally friendly products to help you maintain your beautiful green lawn, check out Black and Decker's 24-volt cordless, rechargeable lawn mower — a no-mess, no-hassle alternative to gas-powered mowers. It's a cleaner, quieter way to mow. There are no smelly emissions drifting around your yard and home and no electric cords to get tangled up in. The easy-to-start Cordless Lawn Mower is Energy Star rated by the Environmental Protection Agency, and there's no need for costly gas, oil or tune-ups. **Count Those Kilowatts**

Protect your valuable electronic equipment and appliances with this innovative power strip bundled with an electronic measuring device. In addition to protecting valuable electronics from power surges and spikes, this Kill A Watt strip will actually measure the energy efficiency of your electronic gear, allowing you to calculate your overall electrical costs. Now you'll know how much your entire computer or home theater system is costing you. The strip has six standard sized outlets and two extra wide outlets for those extra large plugs. **Washer, Dryer Are Countertop Wonders**

Laundry-Alternative introduces the Wonder Wash and Spin Dryer — small enough for countertop use, easy and safe to use, and they cut down on water and electricity usage. They're especially ideal for small families, apartments, dorm rooms and RVs. Functioning similar to a traditional washing machine and dryer, the Wonder Wash and Spin Dryer will clean and dry clothing thoroughly in compact, portable and affordable machines. The Wonder Wash uses 90 percent less water and detergent than conventional washing machines and fits easily on the countertop.
