RIGHT MEDICAL IMPROVES ACCURACY WITH SPEEDY-I. The Speedy-I Auto Refractometer features a large, 6.5-in. LCD screen and offers enhanced stability and accuracy. Other features include pupil diameter measurement, Auto Quick measurement, and wider-range motorized chin rest movement. **For more information, contact Right Medical at 888-224-6012 or rightmedical.com.**

AMERISCIENCES' OS² HAS MORE COMPREHENSIVE FORMULATION. Ocular Support Solution (OS²) specifically addresses the needs of patients who suffer from (or are at risk for) age-related macular de-

generation, dry eye syndrome, and diabetes-related eye-health issues. Offered as a softgel, the new formula is made without vitamin E and beta carotene. The formula consists of omega-3s, vitamins A, C, and D, zinc, taurine, lutein, zeaxanthin, selenium, and alpha lipoic acid.

For more information, contact AmeriSciences at 281-617-0100 or amerisciencesrx.com.

NOVAVISION GOES WIRELESS. The Head Mounted Perimetry (HMP) diagnostic device is portable and ADA-compliant to aid in the professional assessment and early detection of glaucoma, amblyopia, and visual field deficits. The HMP device includes a touch screen, two speed settings, and diamond-shaped screening grid. It measures the visual field in increments of 4° and provides patients with an easy, approachable process. **For more information, contact NovaVision at 888-205-0800 or novavision.com.**
