

**Worx Toys Torch Fire Truck**

**6+; \$65.00**  
**www.WorxToys.com**

This truck responds to shape-code commands that activate the ladder and siren, while identifying each part, such as the engine, pistons, shock absorbers, fire hose, etc. with light and sound. It can be fully activated with the remote-control Worx Storybook Transmitter that drives it to the scene of the fire while sounding its siren and remotely raises and lowers its ladder. Features working doors, fire hose, and light sequences that are activated by simply pushing it forward or backward. Dad Mike says this is extremely well made and John, 6, likes all the different noises.
