A tiny table to go

Hook the **Wheelmate Steering Wheel Desk** to your car steering wheel (not while you're driving), and you've got an instant tray for dining, working on your laptop computer, or writing. The sturdy vinyl laminate tray provides a 15-by-6-inch working surface that wipes clean easily.

Be sure to measure the steering wheel before ordering. The curved-end sections of the tray that hook onto the wheel will only fit a wheel that is no thicker than 11¼ inches in diameter. You may have to turn the wheel one way or the other to provide clearance for the curved lip between the "hooks."

Wheelmate Steering Wheel Desk (EFL-1410636) is \$29.07 at www.cableorganizer.com; 1-866-222-0030.
