

TECH TIDBITS

**SCRATCH-N-SCROLL
NOTEABLE
MOUSEPAD**

> **Get it for:** \$14.99 at www.quirky.com/products.

This is a standard mousepad that also serves as a notepad.

Simply write notes on the pad using the pressure from your finger or the built-in plastic stylus as a pen.

The notes can be erased at any time by flipping up the semi-transparent top sheet.

**16-OUNCE DUAL
AUTO/USB HEATED
MUG**

> **Get it for:** \$21.20 at www.cableorganizer.com.

Simply plug the mug's power cord into a computer's USB port or a vehicle's 12-volt DC power outlet and it will keep a beverage warm throughout the day. The stainless steel construction is durable and ensures good insulation while the protective thermostat control maintains a safe temperature.

It comes with a USB power cable and 12-volt DC car power adapter.

**THRUSTMASTER
TENNIS DUO PACK**

> **Get it for:** \$25.03 at www.amazon.com.

This Wii accessory puts you on the court for a realistic tennis experience.

It comes with a pair of tennis rackets that feature ideal proportions and allows players to sharpen their game moves at home as efficiently as on a tennis court.

The Wii remotes fit into the rackets' grips with ease, and the rackets'

stringing and outer edge are made from shockproof foam.

**EYE AND TEMPLE
MASSAGER**

> **Get it for:** \$98 at www.ecrater.com.

This electronic massager soothes pressure points around the temples, forehead and eyes, relieving sinus pressure and alleviating headaches without the use of medicine.

Through the use of magnets, air pressure, heat compression and vibration, the device stimulates blood flow and relieves eye fatigue.

The integrated speaker plays soothing nature sounds that encourage relaxation.

There is also a remote control that allows users to customize the intensity, length and type of massage.
